A Reggio Inspired Early Learning Centre

We're  
Reggio

## Reggio Emila Approach

Our early learning centre, based on the internationally acclaimed Reggio Emilia approach to learning, provides a zestful environment that promotes curiosity and self-discovery as a first step to a life-long love for learning. Here we encourage children to be active communicators, constructors and collaborators of their personal learning experience.

Our classroom designs are vibrant, welcoming and authentic. They create an ambience that resonates with a child's emotional, mental and physical world and fulfil the child's needs of safety and belongingness. Our teachers closely observe, document and assess the child's progress on a daily basis. As facilitators and partners, they create learning experiences to suit each child's need and interest. For, with us, the vision is not to shape oneself according to the world but to shape the world according to oneself.

# First Steps of childhood

## Imprint of the future

The 'Imprint' - or the first five years of life - is the almost immutable foundation that shapes a child's ability to learn and succeed in school and in life. The maximum extent of brain development in them happens during these formative years.

At 'Lil Pallikkoodam,' we emphasise on three areas of growth during this enriching period - individualized learning, effective social and communication skills for the new age, and productive coexistence in the social environment, ensuring every child gets the singular advantage of the creative teaching methods of visionaries such as Lev Vygotsky, Jean Piaget and Howard Gardner upon whose teachings the Reggio Emilia Approach to early childhood is founded.

# As homely a school can get

## My second home

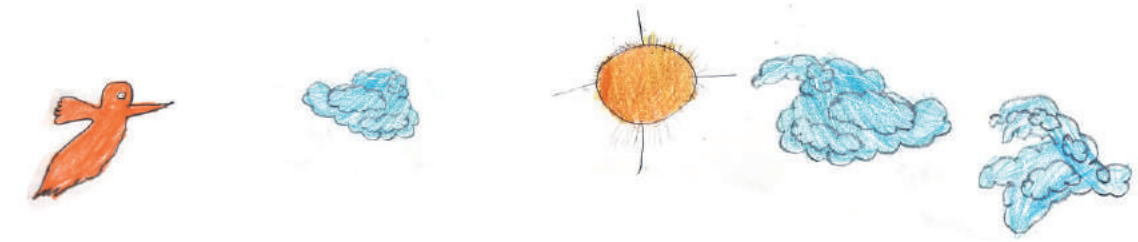

Lil Pallikkoodam ensures that a child's first major step into an unfamiliar world is a seamless and stressfree experience. Our specially trained faculty members works closely with the child's family to create a safe, exciting and welcoming transition from the world at home to the stimulating world at school.

Parent involvement is encouraged, both inside and outside the classroom, to create a strong sense of a community. The school furnishes a warm, caring atmosphere that welcomes children and families of diverse backgrounds and guides children as they learn to play together and form new relationships. In a gentle way, we help the child prepare for his role as an effective member of the future that awaits him.

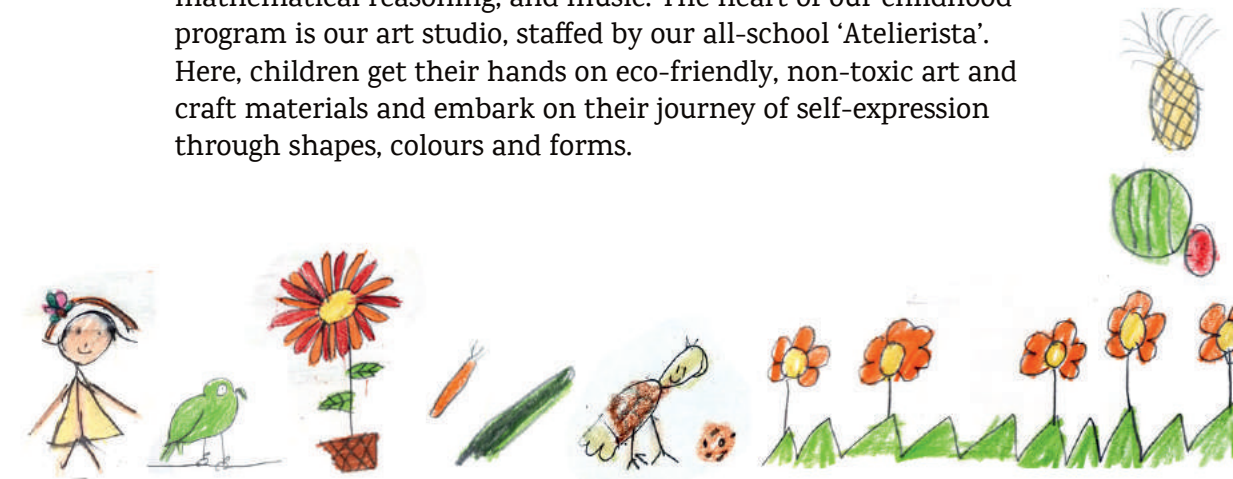

# School Surrounds us

## Environment, the third teacher

The school environment is designed to inspire children to explore and innovate. The outdoors and indoors are scientifically designed to nurture curiosity and facilitate learning in natural surroundings. Classrooms are bright, open and adaptive for both group initiatives and independent pursuits, as the child wishes to.

Every child's day at Lil Pallikkoodam offers fun learning opportunities such as free exploration of the natural world, language and storytelling, print and image making, engineering, mathematical reasoning, and music. The heart of our childhood program is our art studio, staffed by our all-school 'Atelierista'. Here, children get their hands on eco-friendly, non-toxic art and craft materials and embark on their journey of self-expression through shapes, colours and forms.

An Invitation  
to play

## Creative curriculum for infinite learning

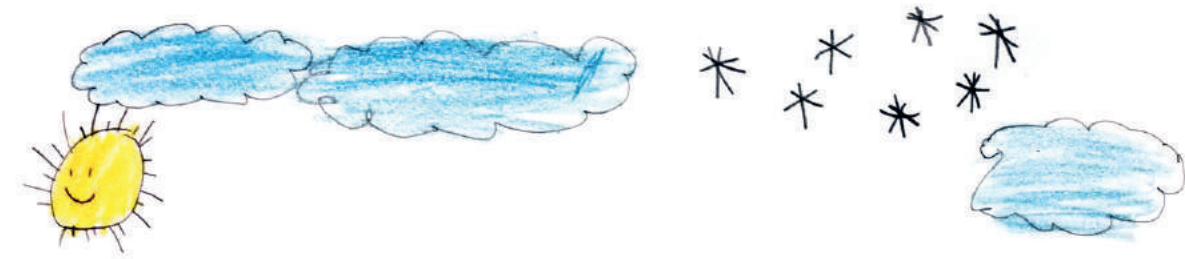

The Creative Curriculum is a comprehensive educational program for children from upto age 5. It combines the latest research and the freshest ideas into a forward-thinking constructivist approach to exciting and relevant learning that fosters creativity.

We take pride in proclaiming the success of the very well known Reggio Emilia Approach which ascertains that children have “infinite ways to express, explore, and connect their thoughts, feelings, and imaginings.” And expressive art being the vocabulary of these languages, art becomes an essential and affirmatory everyday mode of self-discovery and communication in our classrooms. It helps us help each child find and explore their unique path to self-fulfilment and discovery.

# In safe and caring hands

## Child safety involves us all

An environment conducive to learning is the one in which children feel safe enough to open up freely to the world around them and their trust is rewarded by positive affirmations from the outside world. That's what Lil Pallikkoodam offers.

Not just students but all the stakeholders of our school are guaranteed an environment that values their mental, physical and emotional well-being and encourages positive interactions with the world. Be it food, furniture, transport or people, everything at school adheres to the stringent protocols. Moreover, everyone is actively involved in the process.. It is said that it takes a village to bring up a child. We could not agree more.

# Admissions

Our City campus offers programs starting for the children from the age of 24 months. They are eligible to continue in our program until age 5 ½.

**Junior Explorers: (1.6 yrs - 2.6 yrs)**

**Explorers: (2.6 yrs - 3.6 yrs)**

**Junior Creators: (3.6 yrs - 4.6 yrs)**

**Creators: (4.6 yrs - 5.5 yrs)**

## Child playdate

An important step of our application process is our child playdate. This is a follow up after our parent tour and gives an opportunity for the school and the parent to see how the child interacts in our environment. During this playdate the parent gets a chance to get to interact with the teachers, administration and familiarize themselves with the school.

Kids with special needs are also welcome in to our school.

Midday snack, a healthy portion of vegetarian snack is provided to the kids by 11 a.m everyday.

## SCHEDULES OFFERED

Monday- Friday:

Play Group

**9 a.m - 12 p.m**

Kindergarten

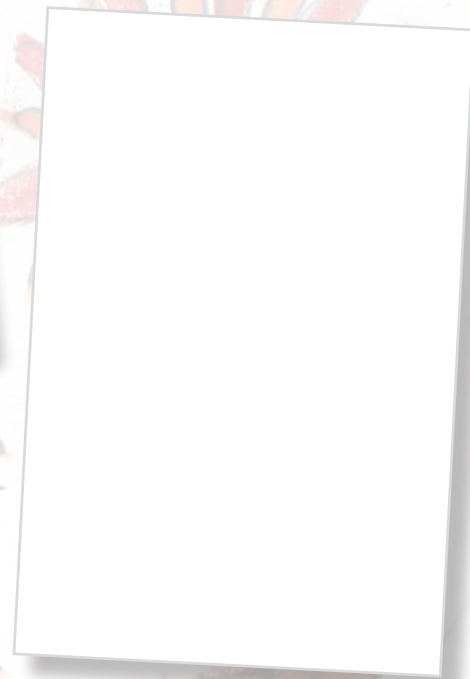

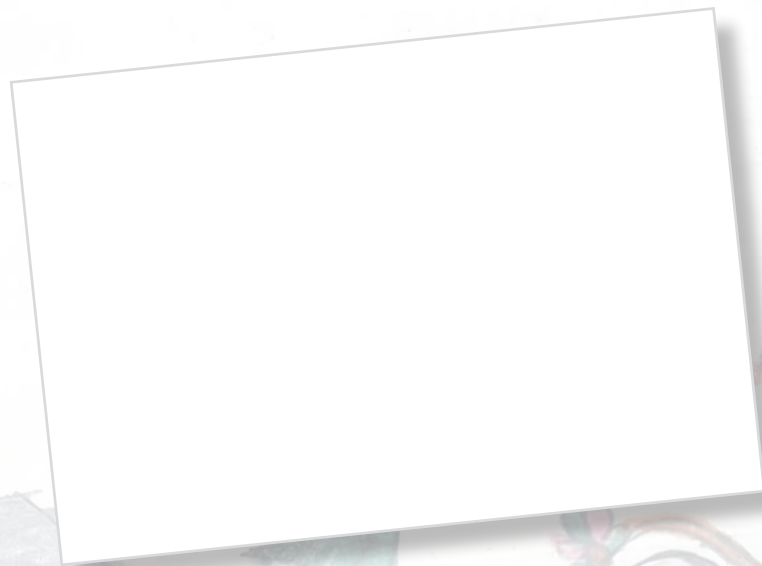

**8.30 a.m - 12.30 p.m**

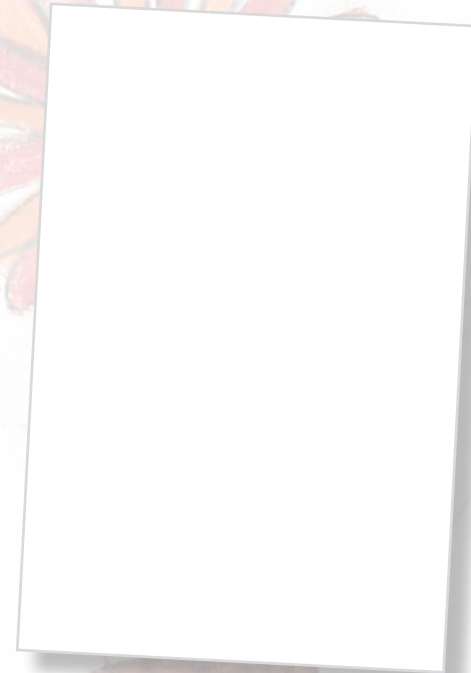

The new “Pallikkoodam” campus is an ‘inspired learning environment’ designed with a deep understanding of ‘21st century learning principles’. It is a result of a unique design process that involved renowned Architects, Designers and Pedagogical experts. The campus is purpose-built for the digital age to encourage innovation and promote collaboration and creative collisions. It houses two separate blocks, for Cambridge International and ICSE curricula, and a professional sports arena with indoor and outdoor facilities.
